

# Contents of volume 201

No. 1: 1-60 published February 3, 1992  
 No. 2: 61-124 published April 13, 1992  
 No. 3: 125-190 published June 4, 1992  
 No. 4: 191-264 published July 7, 1992  
 No. 5: 265-330 published August 24, 1992  
 No. 6: 331-394 published September 28, 1992

Abe H, Kinoh H, Oikawa T, Suzuki N: The egg-jelly macromolecule, a fucose sulphate glycoconjugate, originates from the accessory cells of the ovary in the sea urchin *Hemicentrotus pulcherrimus* 179

Agnel M, Röder L, Griffin-Shea R, Vola C: The spatial expression of *Drosophila rotund* gene reveals that the imaginal discs are organized in domains along the proximal-distal axis 284

Albert P, Toubian B, Lacorre-Arescaldino I: Change in chromatin organization related to in vivo transcriptional activity and histone synthesis independent of DNA replication during differentiation (germination) of *Physarum sphaerules* 149

Andéol Y → Vriz S

Bate M → Broadie K

Bellen HJ → Whitehouse-Hills S

Berking S → Krohler M

Bernardini S → Cannata SM

Bohrmann J, Frey A, Gutzeit HO: Observations on the polarity of mutant *Drosophila* follicles lacking the oocyte 268

Boogaart JGM van den → Gevers P

Born J → Janeczke J

Broadie K, Skaer H, Bate M: Whole-embryo culture of *Drosophila*: development of embryonic tissues in vitro 364

Campos-Ortega JA, Haenlin M: Regulatory signals and signal molecules in early neurogenesis of *Drosophila melanogaster* 1

Cannata SM, Bernardini S, Di Bernardino R, Filoni S: Nerve-independent DNA synthesis and mitosis in regenerating hindlimbs of larval *Xenopus laevis* 128

Cervello M → Matranga V

Costello WJ → Hummon MR

Côté S → Ouellette RJ

Créton R, Zivkovic D, Speksnijder JE, Dohmen M-R: Manipulation of cytokinesis affects polar ionic current around the egg of *Lymnaea stagnalis* 346

David CN → Greber MJ

Di Bernardino R → Cannata SM

Di Ferro D → Matranga V

Ding, X, McKeehan WL, Xu J, Grunz H: Spatial and temporal localization of FGF-receptors in *Xenopus laevis* 334

Dohmen M-R → Créton R

Dorresteyn AWC → Schneider S

Dulos J → Gevers P

Engström Y, Schneuwly S, Gehring WJ: Spatial and temporal expression of an *Antennapedia/lacZ* gene construct integrated into the endogenous *Antennapedia* gene of *Drosophila melanogaster* 65

Epperlein H-H → Schmid M

Filoni S → Cannata SM

Fischer A → Schneider S

Fischer J-L: Laurent Chabry (1855-1893) and the "Age d'or" of biology 61

Fischer J-L: The embryological oeuvre of Laurent Chabry 125

Fischer J-L → Sander K

Fleig R, Walldorf U, Gehring WJ, Sander K: Development of the *Deformed* protein pattern in the embryo of the honeybee *Apis mellifera* L. (Hymenoptera) 235

Frey A → Bohrman J

Gehring WJ → Engström Y

Gehring WJ → Fleig R

Gevers P, Dulos J, Boogaart JGM van den, Timmermans LPM: A study on cell lineage, especially the germ cell line, in embryos of the teleost fish, *Barbus conchionius* 275

Granadino B → Sánchez L

Greber MJ, David CN, Holstein TW: A quantitative method for separation of living *Hydra* cells 296

Griffin-Shea R → Agnel M

Grunz H → Ding X

Gutzeit HO → Bohrman J

Haenlin M → Campos-Ortega JA

Hartenstein V, Jan YN: Studying *Drosophila* embryogenesis with *P-lacZ* enhancer trap lines 194

Holstein TW → Greber MJ

Hoppe P → Janeczke J

Hummon MR, Costello WJ: Cell lineage of flight muscle fibers in *Drosophila*: a fate map of the induced *shibire* phenotype in mosaics 88

Ishizuya-Oka A, Mizuno T: Demonstration of sucrose immunoreactivity of the brush border induced by duodenal mesenchyme in chick stomach endoderm 389

Ishizuya-Oka A, Shimozawa A: Connective tissue is involved in adult epithelial development of the small intestine during anuran metamorphosis in vitro 322

Jan YN → Hartenstein V

Janeczke J, Born J, Hoppe P, Tiedemann H: Partial characterization of neural-inducing factors from *Xenopus* gastrulae. Evidence for a larger protein complex containing the factor 30

Jones EA → Old R

Kiger Jr JA → Whitehouse-Hills S

Kinoh H → Abe H

Krohler M, Plickert G: Analysis of pattern formation during embryonic development of *Hydractinia echinata* 95

Krohler M, Walther M, Berking S: Heat shock as inducer of metamorphosis in marine invertebrates 169

Kurabuchi S: Outgrowth dependency of forelimb regeneration on nerves in adult African clawed from *Xenopus laevis* 376

Lacorre-Arescaldino I → Albert P

Lane EB → Viebahn C

Lipps HJ → Schmid M

Matranga V, Di Ferro D, Zito F, Cervello M, Nakano E: A new extracellular matrix protein of the sea urchin embryo with properties of a substrate adhesion molecule 173

McKeehan WL → Ding X

Méchal M → Vriz S

Meier T → Xie F

Milner MJ → Peel DJ

Mizuno T → Ishizuya-Oka A

Nakano E → Matranga V

Niemann H → Saito S

Nieuwkoop PD: The formation of the mesoderm in urodelean amphibians. VI. The self-organizing capacity of the induced meso-endoderm 18

Nishida H: Developmental potential for tissue differentiation of fully dissociated cells of the ascidian embryo 81

Oikawa T → Abe H

Old R, Jones EA, Sweeney G, Smith DP: Precocious synthesis of a thyroid hormone receptor in *Xenopus* embryos causes hormone-dependent developmental abnormalities 312

Ouellette RJ, Valet J-P, Côté S: Expression of *gooseberry-proximal* in the *Drosophila* developing nervous system responds to cues provided by segment polarity genes 157

Peel DJ, Milner MJ: The expression of PS integrins in *Drosophila melanogaster* imaginal disc cell lines 120

Plickert G → Krohler M

Ramaekers FCS → Viebahn C

Reichert H → Xie F

Restifo LL, White K: Mutations in a steroid hormone-regulated gene disrupt the metamorphosis of internal tissues in *Drosophila*: salivary glands, muscle, and gut 221

Röder L → Agnel M

- Saito S, Strelchenko N, Niemann H: Bovine embryonic stem cell-like cell lines cultured over several passages 134
- Sánchez L, Granadino B: Gradual acquisition of the developmental capacity to differentiate adult structures by the genital disc of *Drosophila melanogaster* 105
- Sander K: Hans Driesch the critical mechanist: "Analytische Theorie der organischen Entwicklung" 331
- Sander K: Shaking a concept: Hans Driesch and the varied fates of sea urchin blastomeres 265
- Sander K, Fischer J-L: How to dart ascidian blastomeres: The embryological micro-tools of Laurent Chabry (1855-1893) 191
- Sander K → Fleig R
- Schmid M, Steinbeisser H, Epperlein H-H, Trendelenburg MF, Lipps HJ: An expression vector inhibits gene expression in *Xenopus* embryos by antisense RNA 340
- Schneider S, Fischer A, Dorresteyn AWC: A morphometric comparison of dissimilar early development in sibling species of *Platynereis* (Annelida, Polychaeta) 243
- Schneuwly S → Engström Y
- Shimozawa A → Ishizuya-Oka A
- Skaer H → Broadie K
- Smith DP → Old R
- Speksnijder JE → Créton R
- Spiegel E, Spiegel M: The insertion of mesenchyme cells into the ectoderm during differentiation in sea urchin embryos 383
- Spiegel M → Spiegel E
- Steinbeisser H → Schmid M
- Sternfeld J: A study of PstB cells during *Dictyostelium* migration and culmination reveals a unidirectional cell type conversion process 354
- Strelchenko N → Saito S
- Suzuki N → Abe H
- Sweeney G → Old R
- Takeuchi S → Toyozumi R
- Tiedemann H → Janeczek J
- Timmermans LPM → Gevers P
- Toublan B → Albert P
- Toyozumi R, Takeuchi S: Morphometry of cellular protrusions of mesodermal cells and fibrous extracellular matrix in the primitive streak stage chick embryo 36
- Trendelenburg MF → Schmid M
- Valet J-P → Ouellette RJ
- Varmuza SL: Teratogenic effects of parthenogenetic cells from LTXBO mice, a strain which develops ovarian teratomas at high frequency 142
- Viebahn C, Lane EB, Ramaekers FCS: Intermediate filament protein expression and mesoderm formation in the rabbit embryo. A double-labelling immunofluorescence study 45
- Vola C → Agnel M
- Vriz S, Andéol Y, Méchali M: Isolation and developmental expression of an oogenesis-specific *Xenopus* cDNA clone 113
- Walldorf U → Fleig R
- Walther M → Krohner M
- White K → Restifo LL
- Whitehouse-Hills S, Bellen HJ, Kiger Jr JA: Embryonic cAMP and developmental potential in *Drosophila melanogaster* 257
- Xie F, Meier T, Reichert H: Embryonic development of muscle patterns in the body wall of the grasshopper 301
- Xu J → Ding X
- Zeng M, Zhou M: A quantitative evaluation of gap junctions and their morphological alteration during differentiation of amphibian notochord cells 12
- Zhou M → Zeng M
- Zito F → Matranga V
- Zivkovic D → Créton R
